

Integrated Management System Policy

At Gum Base Co., the **health and safety of its staff, care for the environment, quality and food safety, are non negotiable values.**

The company adheres to current laws and regulations concerning health and safety in the workplace and acknowledges its people as a fundamental pillar, urging its management to operate confidently and with felt leadership through the concrete example of their own behavior.

As part of their duties and commitment to the company's general goals, management endeavours to apply this policy, which is available and publicized to all employees and people operating under the organization's control with the aim of making everyone aware of their own obligations.

Management will review the policy periodically to ensure continuous alignment and fit with the organization, constantly looking to improve the Management Systems in place and, if necessary, introduce new ones, encouraging the pursuit of following macro objectives related to the Company and to the whole Group:

Health and Safety

- **Prevent risks at source** by reducing the likelihood of occurrence, through developing and evaluating products and materials, improving operating procedures and equipment;
- Continue to **improve the focus on excellence** in terms of working environments and tools – equipment, making them safer, more ergonomic and ensuring long term **sustainability** for operations;
- Encourage all employees' active **involvement and participation** in developing a cultural that favours improved processes and control of preventative aspects also through employee health and safety representatives;
- **Motivate** all employees in **promoting** safe behaviour and healthy habits in the workplace and in everyday life;
- Achieve and maintain a level of **zero injuries** whilst **analysing all events** so as to prevent possible accidents reported through development and implementation, as well as assessing efficiency of plans for improvement;
- Insist that **health and safety awareness training** and **competency specific training** activities be carried out by all personnel;
- **Ensure** that all contractors, autonomous professionals asked to operate in the company and visitors recognize, embrace and practice our values;
